

Technology Conditions Surveys (TCS) by the numbers

Archi-Technology's TCS services examine all District buildings to objectively assess current technology conditions, recommend improvements, and estimate the rough cost of those improvements.

1 Total NYS Technology Surveys Conducted

2015 – '20
21

2021 – '22
21 (+100%)

42

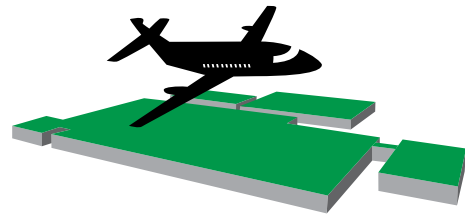

Provided to upstate NY school districts from the Mohawk Valley to Lake Erie.

2 Total Interior Space Sq. Ft. Surveyed

2015 – '20
14,300,000

2021 – '22
9,379,859 (+60%)

23,679,859

That's about 5.5 times the size of Boeing's Everett Factory, the world's largest building.

3 Total Full-Time Students Effected

2015 – '20
66,900

2021 – '22
30,050 (+45%)

96,950

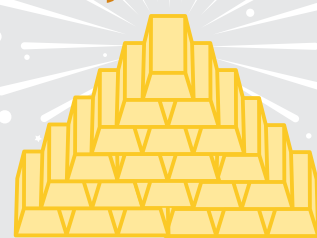

That's about the full-time student enrollment at San Diego City School District (CA).

4 Total Recommended Improvement Costs

2015 – '20
\$66M

2021 – '22
\$234.6M (+350%)

\$300,630,751

That would buy about 10,409 pounds of gold at today's price (\$1,805/oz.).
