# Archi-Technology TIMS Bundled Services

We are pleased to provide these bundled Technology Infrastructure Management Services (TIMS) to school districts served by the Western New York Regional Information Centers (WNYRIC).

These services are of particular interest to smaller districts that lack the dedicated internal resources to adequately manage their technology infrastructure and interconnected IP-based systems including classroom systems, devices and software.

## Available TIMS Bundled Service Packages

**CREATE**

Get all of your district's technology initiatives on the same 10-year plan based on an objective assessment of current technology conditions. Optimize available funding, budget for refresh and upgrade cycles, and meet short- and long-range goals.

1. Technology Conditions Survey (TCS)
2. Comprehensive Technology Plan (CTP)
3. Smart School Investment Plans (SSIP)
4. Technology Systems Design Standards
5. Communications Equipment Room (CER) Master Plans

**MAINTAIN**

Keep your technology infrastructure and connected IP-based systems operating at peak performance with these software subscriptions and annual maintenance services. Improve facility operations with reduced service call quantities and durations.

1. AT Plans™ Comprehensive Technology Planning Software
2. AT Binders™ Electronic Facility Records (EFR) Software
3. EFR Technology System Management
4. Comprehensive Technology Plan (CTP) Oversight and Maintenance
5. Other TIMS services, as needed.

**REFRESH**

Give your instructional technology systems, devices and hardware the attention they deserve with our vendor-agnostic refresh services. Optimize budgets, procure high-value components and meet district technology and instructional goals.

1. Instructional Technology Guidance
2. Hardware and Software Annual Maintenance
3. STEAM Lab Development/Refresh
4. Procurement Assistance

Each of the above bundled-service package is priced at $10,000 + 2¢/sq. ft. of total facilities space.

Please contact your WNYRIC Project Manager to discuss which services would be most beneficial to your district. You can also learn more about these services at www.Archi-Technology.com.
